WELCOME TO
KING LEOPOLD AIR

Your Kimberley Adventure awaits.

The Kimberley, renowned for its dramatic and beautiful landscapes, towering cliffs, rocky headlands, sandy beaches, natural rivers, spectacular waterfalls and thousands of islands off the remote sandstone coast. Inland lies the rugged Kimberley plateau, with its deep gorges and cascading waterfalls, the striking King Leopold Ranges, and Windjana and Geikie gorges, which cut through the limestone of an ancient coral reef.

It is here, based on a pastoral station close to its namesake - the spectacular King Leopold Ranges, King Leopold Air first took to the Kimberley skies as a small charter company back in 1992. Today the company has seen much expansion in both the commercial and leisure tourism sectors with its Head Office located at Broome International Airport.

Experienced pilots are additionally trained as tour guides in order to provide a comprehensive and informative insight into the stunning Kimberley landscape. King Leopold Air operates a fleet of well-maintained aircraft including the GA8 Airvan, Cessna 210, 206 and 207, ideally suited for the challenging Kimberley conditions.

- High-wing aircraft with wide passenger windows for better viewing
- In-flight commentary provided by our experienced pilots
- Professional pilots specifically trained for Kimberley conditions
- Complimentary transfers, water bottle and personalised tour map on arrival

King Leopold Air has over 25 years of experience, is committed to providing outstanding customer service and highly values its relationship with passengers. With a TripAdvisor Certificate of Excellence Award four years running, our aim is to exceed expectations while providing, through its operations
